

My snowman has three snow balls that make up his body. They are all outlined with black but white like snow in the middle. He has black eyes and month but his nose is orange. He has two stick arms that have three little sticks as the fingers. They are also brown.

The ground is covered in snow. The sky is light blue. The sun is red but it has yellow rays like in cartoons. Now back to the arms. They aren't strait at all. The fingers are just like the arms. It's like a normal snowman but it's drown.
